### Editorial.

A Redeeming Feature-"My dwell- county.-Free Press. ing is bounded on the north by pus works, on the south by an inclin-rub-

Quite so; but it has one advantage. I can always tell which way the winds blows, without looking at the wenther sock."

These readers of the papers who have observed the daily forecasts made by the gentlemen who sit in comfortable quarters on top of some high building, who are styled forecustors, and who send out every day a statement of probabilities, for which the government taxs a good round sum in salaries, cannot lave failed to remark the almost unvarying precision with which they misit by a mile or so. For instance, the prediction for Wednesday was busin or snow followed by fair weather, Local snows Wednesday and high westerly winds with cold wave. Just recall the facts as to the weath or that day.

Now in view of this we desire to THE TRADE IN FLOUR make a few suggestions. File county is celebrated in the number REMARKABLE CAPTURE OF THE of her ponds or small lakes, these could be used to excellent advantage if the scheme we propose be addpied. Let the government abolish the weather bureau as now constructed. It owes Pike county a debt not only of gratitude, but of more substantial recognition for the manner in which she stood by it with a majority. small 'tis true, when the whole country, except Tammany, went back on the present administration. The views and opinions of our present M. C. on the great questions of finance, trade and foreign policy, which have been so widely dissertinated in his speeches and through the editorial columns of his paper, are hardly in consonance with those of the present Congress, and however it may be charmed by his elequence, it will scarcely be persuaded by his elequence, it will scarcely be persuaded by his logic, in view of the vote in the country, to adopt his ideas or those subjects, hence his possibilities for usefulness in that direction may be curtailed. Now let him introduce a bill in Congress asking for an ap-The views and opinions of our pre- ers, to mill owners and to transportaa bill in Congress asking for an appropriation of four million dellars. in view of the state of the treasury. American countries the loss exceeded The Armendana Arm In Dire Distress and this could not in fairness be refused. \$1,150,000. to build a large government observatory on the High Knob in this county. Let the bill provide for the 1804 and 1805, were us follows: employment of several goese-hone prophets of national fame and dis-tinetion, and let the ponds of Pike 1866.

and the sportive sucker, and did finally succeed in having a law passed in New York State, looking to that end, but the tyramical action of the fish wardens backed by the opinions of aristocratic attorney-generals, practically neutralized the beneficial effects of the bill.

The establishment of the observetory at the point surgested would be central. The large timber tracts of the country would formush an abundance of poles, and tolograph wires could radiate in all directions, over which the prognostications could hourly be sent. This location to the prognostications of the

mine the force and direction of the we ward confided to resels out into the wind by the method first mentioned markets of the world. Unfortunately, he could by 'wetting' his finger flour expect trails indeed flour expect trails indeed flour expect trails indeed flour expect trails in a chicago conflagration. reasonable certainty. And he could comple of nonths at compared with also look down in disdain on the trade transmeted in the same cammodity domains of the aforesaid odious tiern year earlier, batche there was any breach in the wall and before we could park. The crection of this building and the consequent large outlay of the work, but yet while we still manmoney, the stendy employment it aged to get there. would give to a great number of Milford, Pike county, Pennsylvania, "hungry and thirsty" people would be of incalculable benefit to the Democracy of Pike.
